

# What's YOUR Environmental Footprint?

*We'd like you to find out, and to send us the results for analysis.*

Use the World Wide Fund calculator to estimate your footprint and see whether you're on track to reduce emissions to zero by 2045.

From the 'Results' screen click 'Share Score' to email Reading FoE at [calccarbon@gmail.com](mailto:calccarbon@gmail.com) so we can see how a sample of people in Reading are doing.

What does it mean? – see <https://footprint.wwf.org.uk/#/methodology>
